

## CANADIAN DRIVER'S LICENCE REFERENCE GUIDE

In Canada, provincial/territorial licencing regulations are modeled on the guidelines set out in the Canadian Council of Motor Transport Administrators (CCMTA) National Safety Code (NSC) that is supported by four standards. All Canadian licenced drivers must meet these requirements prior to being eligible to operate a commercial vehicle and are required to carry a driver's licence that is valid for the vehicle and conditions under which it is operated.

This guide will identify each of the 13 Canadian jurisdictions (10 provinces and 3 territories) and their driver licencing classification system. The content includes the driver licence class, type of vehicle permitted to be operated and restriction/endorsement codes.

### DISCLAIMER/CAUTION

The “Canadian Driver’s Licence Reference Guide” is designed to be used as guidelines only. While the guidelines represent good practices, they may not conform exactly to current provincial/territorial regulations. Inspectors are cautioned to always follow current regulations when determining what licence information is required.

**NOVA SCOTIA DRIVER'S LICENCE**

January 2017

**RESTRICTIONS:**

**Most** restriction codes are printed on the back of the driver's licence. Some codes (i.e., area restrictions) may be too lengthy to print on the back of the card, and those codes will cause a large red "R" to be printed on the front of the licence to alert law enforcement's attention to the restriction. In order to know what these particular codes mean, law enforcement must contact the Registry of Motor Vehicles.

Many restriction codes will also cause a large red "R" to be printed on the front of the driver's licence even where the code itself prints fully on the back of the licence. Again, it is expected that this will draw law enforcement's attention to the particular restriction.

Our driver's licence does not print a "Y" or "N" on the front of the licence to indicate whether the particular driver has any restrictions.

Restrictions Due to Age: None

**ENDORSEMENTS:**

The following codes are used and displayed on the licence:

- A Valid for Any Motorcycle and Motor-driven Cycle. Client must hold a valid Class 1-5 licence, successfully complete a written knowledge test for Class 6 (motorcycle) and successfully demonstrate driving ability in a Class 6 vehicle.  
Note: Age and medical requirements as per Class 6.
- B Valid for School Bus. Client must hold a valid Class 1-4 licence, successfully complete a written knowledge test, vision screening for operation of a school bus, and successfully demonstrate driving ability in a school bus with seating capacity appropriate for the Class of licence held. Furthermore, the client must be at least 19 years of age, and must submit a satisfactory medical assessment form on application for the school bus endorsement.  
Note: A medical assessment form must be completed on any subsequent renewal and yearly after the age of 65.
